HILL'S IRISES

1933 IRIS CATALOG
HILL IRIS & PEONY FARM
LAFONTAINE, KANSAS

HILL'S IRISES

This year our Iris collection is more complete than ever before. It is the result of careful selection to obtain the most beautiful Irises of real garden value. Iris lovers will find in our 1933 prices a rare opportunity to increase their plantings at extremely low cost.

As usual we make a special feature of our fine and complete collection of Sass Irises. The Sass brothers, of Nebraska, are recognized as being among the very foremost Iris breeders of the world. One of their greatest contributions to the Iris world has been a group of superbly beautiful blends of red, pink, yellow and brown. Among this group are No-we-ta, Al-lu-we, Euphony, Midgard and Ramesses. The latter won the Dykes Medal for 1932. They have also produced a very fine group of plicatas and have pioneered in the breeding of intermediates and fall bloomers.

TERMS AND CONDITIONS

Shipment will be made to any point in the United States by prepaid express or prepaid parcel post on all orders over \$3.00. ORDERS FOR LESS THAN \$3.00 MUST INCLUDE 25 CENTS FOR POSTAGE. We can not pay transportation on any shipments to foreign countries. Terms, cash with order. Payment should be made by check or Postal Money Order. Small amounts may be paid in stamps.

GUARANTEE

We guarantee all rhizomes to be true to name, of first class size and quality, free from disease and pests, and to reach you in live and healthy condition. We can not guarantee them to live and grow in your garden under conditions over which we have no control.

We take every precaution to prevent mistakes in filling orders, and if any mistakes should occur, will gladly make adjustment; however, we will in no case be liable for an amount greater than the purchase price of the stock. No substitutions made unless directed.

CULTURE

Irises are not particular as to soil, but the bearded varieties in general prefer an alkaline soil rather than an acid or humus one. They like plenty of sunlight and are able to withstand severe drought if well established. The beardless and crested sorts, including the Sibericas and Spurias, require plenty of moisture and an acid soil, also some kinds need partial shade. Irises should be planted with the top of the rhizomes level with the top of the ground except in the case of late fall planting when they should be more deeply covered to prevent heaving.

TIME TO PLANT

Bearded Irises may be transplanted any time in the spring, summer or fall. We recommend that they be planted immediately after the blooming season or in the fall. In the South, Southwest and Middle West where summers are usually hot and dry we strongly recommend fall planting, which may be carried on until freezing.

Beardless Irises should be planted in the fall or in early spring when growth is just starting.

SASS IRISES

Tall Bearded and Intermediate

	Price Each
AK-SAR-BEN (J. Sass 1923) Fawn and velvety brown markings on cream colored ground	\$.25
ALICE HORSEFALL (H. P. Sass 1932) Large, dark, velvety, red purple intermediate with an orange beard, 30 inch.....	1.00
AL-LU-WE (H. P. Sass 1932) (Indian name meaning better quality.) One of the new type of tall, large flowered variegatas with fine yellow standards and red falls, on 40-inch branching stems	6.00
AMBERA (H. P. Sass 1931) Vigorous intermediate which is an amber yellow self in color; 30-inch75
BALDWIN (H. P. Sass 1926) One of the best of the dark, blue purples, a large manganese violet self on 40-inch stems75
BEAU IDEAL (J. Sass 1924) A unique plicata, white with an almost solid half inch border of Chinese violet on both S and F, a large flower of good substance15
BLACKAMoor (J. Sass 1932) One of the finest dark, blue purples yet introduced; the deep blue effect is intensified by a blue beard. The large flowers are almost black when opened..	5.00
BLUE HILL (H. P. Sass 1931) Real blue color that is as rich in tone and deeper than Sensation. Flower is large and ruffled and stem is ideally branched	2.00
CAROLINE E. STRINGER (J. Sass 1930) In effect a delicate pink tinted Iris, large and ruffled with yellow at the haft and a yellow beard; 33-inch25
CHALLENGER (J. Sass 1930) S dull dark purple, large and overlapping; F dark blackish violet, flaring. The largest flowered intermediate50
CHESTNUT (J. Sass 1930) The brownest of all the plicatas, S cinnamon drab; F cream, dotted brown15
CHIEF (J. Sass 1926) Large blue purple intermediate, very dark; 22-inch25
CHURCHMOUSE (H. P. Sass 1929) A new color in Irises, nearly a true self in a shade called Hays' brown. Medium sized flowers on 36-inch stems50
CLARA NOYES (H. P. Sass 1931) A gorgeous blend of red, orange and yellow tones. Its color is like that of a Talisman rose. Small rhizomes	5.00
COLOSSUS (H. P. Sass 1931) Its blooms are among the largest of all Irises, a dark purple of fine quality	5.00
CYRUS (H. P. Sass 1931) An empire yellow with a much deeper splash at the end of the beard giving a glowing effect, flowers of fine form and substance on 34-inch stems50
DOXA (H. P. Sass 1928) Large intermediate of novel coloring. S light Chalcedony yellow, F olive buff with blue tint at center; 20-inch	1.00

For Our 10% Plant Premium, see page 15

EL TOVAR (H. P. Sass 1933) A brilliant variegata blend described by one judge as the finest all around Iris. S Mikado brown, center of standards flushed honey yellow, F velvety blackish maroon. Shape and size is ideal, heavy substance	30.00
EUPHONY (H. P. Sass 1929) A blend of golden yellow and molasses colored tones, the falls much veined with a gun metal sheen; growth vigorous and hardy50
EVENTIDE (H. P. Sass 1926) A hazy blue toned self. Its soft coloring is much admired25
GIANT BALDWIN (H. P. Sass 1932) In plant and flower fully as fine and vigorous as Baldwin, yet even larger and just a shade lighter in tone, but still a true self. The blooming season is earlier than that of Baldwin	2.00
GIANT KING (H. P. Sass 1931) Of Iris King type and color, but with blooms as large and tall as Ambassadeur50
GOLDEN LIGHT (H. P. Sass 1933) One of the new tones, a cinnamon colored blend. A seedling of Euphony with its distinctive form, 40-inches tall with low branched stems. Its color is brighter and of better carrying quality than that of other brown toned blends	20.00
GRETCHEN (H. P. Sass) One of the favorite pink amoenas of the garden50
IMPERIAL BLUSH (H. P. Sass 1933) Large blush pink on 40-inch branching stems. The finest light pink to date	10.00
IRMA POLLOCK (H. P. Sass 1931) In effect a much lighter toned Waconda and of equally fine quality. S magenta, F velvety carmine, with lighter margin; 36-inch	3.00
JUBILEE (J. Sass 1923) One of the most popular of the famous Sass plicata blends. Large ruffled flower of heavy substance, S Naples yellow dotted purple, F white, striped and dotted brown and purple25
JUMBO (J. Sass 1927) An enormous dark velvety bi-color with blue violet standards and dark red violet falls25
KING JUBA (H. P. Sass 1931) One of the new, brilliant, large flowered, tall variegatas. The contrast between the yellow standards and the deep velvety red falls makes this a striking Iris	7.50
KING KARL (J. Sass 1925) Most popular of the plicata blends. Ruffled light pinkish cinnamon standards, F cream sanded with purple40
KING TUT (H. P. Sass 1926) Brilliant red in garden effect. F Hessian brown, S cacao brown, haft and beard golden yellow. A parent of some of the finest reds and blends	1.00
LOCHINVAR (H. P. Sass 1931) Large, free blooming, bright blue bi-color. A superior Iris of unusual vigor25
LONA (J. Sass 1923) Large ruffled plicata. S vinaceous purple with white center. F cream, dotted purple25

Siberians. Distinctive, Dependable. See page 14

MATILDA (J. Sass 1929) Blue plicata. This offers a fine contrast of soft violet blue on bold, pure white25
MIDGARD (H. P. Sass 1926) Both standards and falls yellow with a flush of clear pink. An Iris of exquisite coloring which does not fade; heavy substance. So popular the supply has never equalled the demand50
MIDWEST (H. P. Sass 1923) Another plicata type of distinct character. Large ruffled flowers flushed and dotted deep rose on a white ground15
MIDWEST PRIDE (H. P. Sass 1931) Fine dark Iris of heavy substance. In coloring a much glorified Archeveque. S Hortense violet, F hyacinth violet deepening at center	3.00
MRS. A. S. HOYT (J. Sass 1927) Dainty ruffled pink plicata with a heart shaped white center in the falls15
NEBRASKA (H. P. Sass 1929) The latest yellow Iris to bloom and one of the richest in coloring. S ruffled apricot yellow, F same color with brown veining50
NEHAWKA (J. Sass 1929) The darkest plicata. It is so heavily stippled with purple that it looks like a self at a distance25
NO-WE-TA (H. P. Sass 1932) (Indian name meaning welcome.) A pinker Midgard type of entirely different form. It is a true pink self in effect with yellow flushes at the center and edges of the falls and standards	7.50
NYMPH (H. P. Sass 1926) An empire yellow intermediate that is an amazingly free bloomer; one of the finest of the early yellows25
OKOBOJI (J. Sass 1932) Dark velvety red purple of great size. S deep livid purple, F velvety dark maroon purple	1.00
OLD GOLD (H. P. Sass 1929) The first real deep yellow plicata type, although the pattern is light. S primuline yellow, ruffled. F old gold with buff overlay15
OMAHA (H. P. Sass 1929) Approaches clear red in a tone of beautiful clarity. S dark vinaceous, F vinaceous purple. Vigorous and free blooming75
ORIANA (H. P. Sass 1933) The fairest and purest. A white Iris of medium height and of the highest quality. Well balanced stems with blooms of good size	6.00
OTOE (H. P. Sass 1927) Striking coppery red50
PRAIRIE GOLD (H. P. Sass 1926) This remains the purest, deepest yellow self in spite of many fine new introductions. Free blooming and vigorous, medium height25
PURPLE HAZE (H. P. Sass 1927) A large French gray self of medium height25
QUIVERA (J. Sass 1932) A blend of buff, pink, yellow, orange and brown of unique beauty; 30-inch	2.00
RAGUSA (H. P. Sass 1929) S pansy purple, F blackish red purple. The finest dark red purple blend among the intermediates; 26-inch50

Bargain Irises for Landscaping, see page 15

RAMESES (H. P. Sass 1929) The 1932 American Dykes medal winner and finest of the new blends. Vigorous and healthy in all parts of the country. In color it is a pink and rose toned blend	10.00
RED WING (H. P. Sass 1926) One of the reddest of Irises in garden effect. S light brown vinaceous, F dahlia carmine. Large blooms on 36-inch stems	1.00
SUNGOD (H. P. Sass 1930) Large, tall, medium toned yellow with a little brown veining in the falls25
THURATUS (H. P. Sass 1931) One of the darkest of Irises, a blackish purple self. A long flower with drooping falls showing rich crimson tones when the sun shines through it; 40-inch	2.00
TROSTRINGER (H. P. Sass 1926) A taller better branched C. E. Stringer with the same appealing tones of orchid pink25
WACONDA (H. P. Sass 1931) A large red purple self with exceptional carrying quality for so dark an Iris. Deep red in garden effect. A sister seedling of Rameses	1.50
WAMBLISKA (J. Sass 1931) The largest, tallest and finest of the hardy blue white Irises. Clear snow white with a blue tint at the heart of the flower	3.00

SASS DWARFS

LADDIE BOY (H. P. Sass 1931) Velvety blue purple bi-color with three flowers on a stem	\$.25
NEOLA (J. Sass 1932) A brown toned blend unlike any other dwarf. S livid violet; F deep livid brown shaded sorghum brown; 10-inches	1.00
PYXIE (H. P. Sass 1931) A miniature Jubilee which blooms with the tall bearded Irises	1.00

Dwarf Collection, see page 13

ROSE MIST (H. P. Sass 1932) The beautiful soft mauve pink of this flower is an unusual color in dwarfs50
TITANIA (H. P. Sass 1931) Clear deep butter-cup yellow; two large blooms to the stem50
TONY (H. P. Sass 1931) A red purple that is very deep and rich in tone50
ULTRA (H. P. Sass 1929) One of the bluest of all Irises; two or three blooms to the stem25

—————:o:—————

FALL BLOOMING IRISES

The development of many new and improved fall flowering Irises is one of the greatest advances of recent years in the Iris world. We offer a complete list of the newest fall bloomers as well as the older ones. The originations of the Sass Brothers, who are pioneering in this field, are offered in the following list, many of them for the first time.

For best results fall bloomers should be brought to flower as early as possible in the spring and should be watered in the fall if the season is dry. More frequent dividing and resetting than with ordinary Irises is also advisable. They are not reliable in the northern portion of the country, but do extremely well in the south. With special attention they can be made to bloom even in the North.

AUTUMN KING (H. P. Sass 1924) Typical lavender-blue bi-color of splendid form and substance. Fine seed bearer	\$.15
AUTUMN QUEEN (H. P. Sass 1923) White pumila. A real ever-bloomer, seven months last year35
DORCAS HUTCHESON (H. P. Sass - McDade 1933) Deep violet self; 18-inches. Slightly fragrant	1.00
ELEANOR ROCSEVELT (H. P. Sass - McDade 1933) Deep fluorite purple self with very rich falls. An unusually reliable fall bloomer here in Kansas, also in Nebraska and Tennessee. A very free bloomer, one of the best	10.00
EQUINOX (Auten 1932) According to Mr. McDade this is the most dependable of all fall bloomers. Reddish purple with slightly darker falls	2.50
FRANKLIN ROOSEVELT (J. Sass - McDade 1933) The best one of the Cardinal by Aut. King crosses. Red-purple with blue blotch on falls. Increases slowly in Tenn. and McDade advises most buyers to wait for lower price. Slow grower here, but perfectly hardy	25.00
FROST QUEEN (H. P. Sass - H. M. Hill 1933) Frosty white, very dependable fall bloomer and larger than the other whites. It often has too many flowers bunched, but this may be of advantage to hybridizers	15.00
GOLDEN HARVEST (J. Sass 1929) First yellow fall bloomer	2.00
JEAN SIRET Remontant dwarf. S clear yellow, F yellow, striated violet50

AMBIGU	Small rich brownish red10
ANNE LESLIE	S white; F rich carmine. Late10
ANN PAGE	Very large lavender blue25
ANTARES	Creamy yellow and white, splashed blue25
APACHE	Bright coppery red with flaring falls15
APHRODITE	Clear bright violet pink self30
ARCTURUS	S lemon yellow, flushed; F violet, edged lemon25
ASA	S creamy yellow; F brown, edged yellow, pendulous75
ASIA	Silvery lavender and gold, extra fine quality25
BALLERINE	A very large blue-violet, very fragrant25
BEAU SABREUR (Wmsn. 1930)	S yellow and bronze; F ox-blood red	2.50
BLUE BANNER (Kirk. 1929)	S frilled lavender-blue; F velvety blue. Very bright effect	2.00
BLUEBONNET (Egel. 1930)	Large blue-purple, fine stalks	1.00
BLUE VELVET (Loomis 1929)	Clear dark blue self. Superb quality, tall	6.00
BRILLIANT	Red toned. Free blooming and fragrant15
BRUNO	A brownish red-purple of fine texture50
CAMELIARD	Large amber yellow, overlaid wine purple	2.50
CANOPUS	Large rugged blue-purple10
CAPTAIN COFFIN	Strong growing light tinted blue15
CARDINAL	Rich red. Dominion hybridizer's favorite	1.00
CAYLUS	Large bright violet and velvety black-purple	1.00
CHASSEUR	Fine opaque yellow with bright red veining15
CITRONELLA	Fine tall yellow, veined and mottled red25
COPPEFSMITH	Superb coppery red toned Iris. Late50
CORONATION	Super-type yellow of fine substance	1.00

SELECT YOUR OWN COLLECTION

10% Plant Premiums on All Orders of \$5.00 or More

Choose your own collection of Irises totaling \$5.00 or more and we will add Irises to the value of 10% of the order. You may select these premiums yourself or we will do it for you if you desire.

Sass Collection, see page 6

HILL'S PEONIES

You will receive a copy of our Peony list in the late summer. No other flower will pay higher dividends on money and time invested than will the Peony. Take advantage of present low prices to add to the beauty of your home.

Select a spot in your garden now and prepare it early, so that you will be ready to plant some of the high quality Peony roots which we will be ready to deliver in the fall.

HILL IRIS & PEONY FARM

Lafontaine, Kansas

VISIT OUR GARDENS

Those within driving distance are cordially invited to our gardens during the blooming season. The tall bearded Irises will be at their best during the latter part of May but we will have many fine intermediates in bloom earlier.

Peonies and late Irises will also be on display later in the season.
